

The NAB Needs to get with the times! The group has to stop trying to put a stop to new Tec. As an XM user I pay for the research that goes into creating new Tec. and when it comes out I as well as others should be able to use it. That is why I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide for its customers.  
Thanks for your time,

James Andrew Gordon Dinsmore
